

AIR 1 radio is a postivive force in our community. It is one of the few uplifting encouraging stations on the air today. Most of my family and friends listen to AIR 1 because it is one the safest stations to listen to with our kids. If it were to be replaced by an LPFM and we no longer could recieve its signal it would be a great loss to us. Please don't let us loose a wonderful family radio station like AIR 1!
